

GREAT MOLDER DEMANDS GREAT PRODUCTIVITY !

HYROBOTICS *HiT* Series Take Out Robots Installation Pictures

Customer : Charrmtech Co.Ltd (HQ is in South Korea)

Main Customer : Samsung, LG

Main Products : Cell phone Case, Housing

Factory : Kumi, Daegu in South Korea Tianjin in China

Robot Installed : Tianjin in China (Oct, 2006)

Molding Machine : Total 40 Molding Machines

Toshiba All Electric 10 Units, LS 10

Units, Woojin 10 Units, Other 10 Units

Robots : 40 Units of HYRobotics HIT-200DI Installed

Results : Maximum Productivity with Triangle Production System

HYROBOTICS CORP. (www.hyrobots.com)
5988 Mid Rivers mall Dr. ST.LOUIS, MO 63304
Tel : 1-636-578-6059, Fax : 1-866-232-5594

ALL ELECTRICS IS NOT FAST ENOUGH -

- FOR HYROBOTICS **HiT SERIES TAKE OUT ROBOTS !**

- Why customer installed all electric molding machine (Toshiba 10 Units) ? :
 1. Fast
 2. Save Energy
 3. Precision Control
 4. Reliability
- Why customer installed HYRobotics HIT-200DI ?
 1. All Electric is not fast Enough for HIT !
 2. Save Energy (Hybrid Style)
 3. High quality Components
 4. Easy control with Multi-function
 5. Double arm for 3 Plate Molding

HYROBOTICS CORP. (www.hyrobots.com)

Tel : 1-636-578-6059, Fax : 1-866-232-5594

ALL ELECTRICS IS FOR PRECISION PRODUCTS -

- WITH HYROBOTICS HiT SERIES TAKE OUT ROBOTS !

- Why customer installed all electric molding machine (LGE 10 Units) ? :
 1. Precision Control
 2. Easy to find Right Condition
 3. Optimize condition to meet better quality
- Why customer installed HYRobotics HIT-200DI ?
 1. Optimum mechanical structure for 100 ~ 200 tons IMM.
 2. Precision Electrical Components
 3. Precision Take out.
 4. High Speed and Multi Function.
